

**Sharpening
Class - Free**

Hands-on

**February 17,
2018**

**8:00pm to
12:00pm**

Bob Eberhardt demonstrated tool sharpening in January and will have another **FREE hands-on sharpening session at the clubhouse on February 17.**

The objective is to teach all users how to properly sharpen tools. We will do this by sharpening all of the club's tools for use at future Coffee and Chips. Many members have noticed that the tools in the clubhouse have been in need of sharpening for some time.

Bob will use the club's grinder as well as his Tormek slow speed grinder.

This event will be very popular so we are only accepting the first ten (10) people who send an email to Rich Thelen at rlthelen@charter.net

We can also use an assistant for Bob as two grinders will be in use.
